SUPPLEMENTAL ACTION

Allowable Subject Matter

1. This office action is intended to clarify the record in regards to the references cited by the applicant in the communication filed 5/18/2005. In particular, the prior art references US 6,052,019 Kwong; US 5,909,139 Williams; US 5,808,502 will be distinguished from the invention.

2. Claims 1-18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

US 6,052,019 Kwong: considered the closest reference of the three cited references (US 6,052,019 Kwong; US 5,909,139 Williams; US 5,808,502 Hui et al.).

In regards to the claimed invention, Kwong does not disclose a *floating bus*. Moreover, there is no disclosure or suggestion of a *floating bus*, there is also no express disclosure of a level shift circuit nor is there a voltage signal at an input of the at least one switch circuit that is *floating*. Besides there being no express disclosure for these limitations there is no suggestion or motivation, in any of the references, for these features.

In regards to the claimed invention concerning US 5,909,139 & US 5,808,502: these references fail to disclose the *floating bus* or any of the control circuits or level shift circuits or the *floating* input voltage as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary L. Laxton whose telephone number is (571) 272-2079. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Karl Easthom can be reached on (571) 272-1989. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
